

INTERNATIONAL ASSOCIATION *for*
PSYCHOANALYTIC SELF PSYCHOLOGY

JOIN IAPSP for the 2024 calendar year

New members are most welcome to join our growing, thriving global community of mental health professionals and students.

Please visit www.iapsp.org for more information on member benefits, upcoming events, our mission, our DEI commitment statement and more.

Note that our membership fees vary by country and we offer considerably reduced fees for graduate students, those working in agencies or who have small or no private practices, and anyone for whom paying the full rate would preclude membership.

Please pass this along to anyone you know who might be interested in joining our learning community.

Why join IAPSP?

FOR THE LEARNING

Learn more about contemporary self psychology and related theories and their application to clinical practice through:

- Access to 4 issues / year of our peer reviewed journal, *Psychoanalysis, Self & Context*.
- In-person and virtual conferences (next online conference May 2024 and in-person conference in Rome October 2024) and at least one online workshop per year targeted to those newer to self psychology.
- Frequent online discussions and “Journal Clubs;” next one in January 2024 on paper by Heather MacIntosh.
- The opportunity to join any or all of our Special Interest Groups (on Couple Therapy, Child and Adolescent Treatment, Social Justice, and Teaching), writing mentoring programs, anti-racism discussion groups, and professional support groups.
- Access to our library of recordings of workshops, interviews and live supervisions available only to members, a few of which have been translated into 10 languages.

FOR THE COMMUNITY

Connect with like-minded colleagues from around the world, through the above learning opportunities as well as through your listing in our searchable membership directory on our website.
